

MAKE YOUR OWN SCULPTURE GARDEN DIORAMA

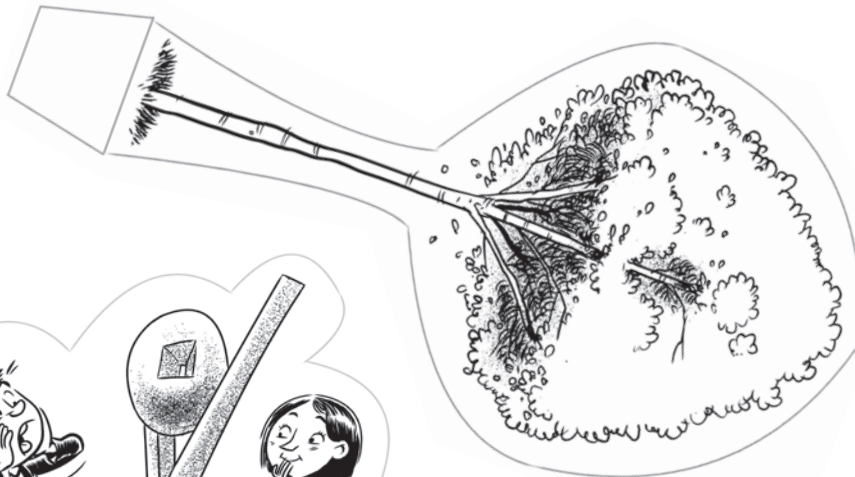

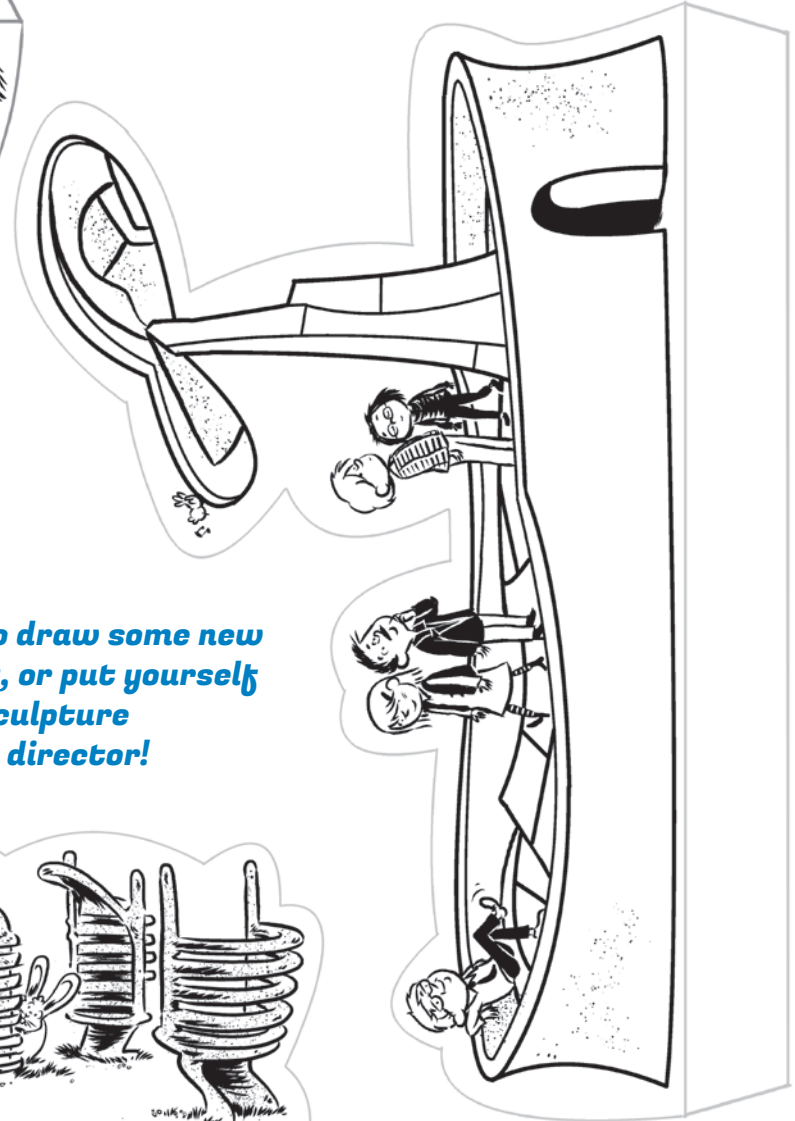

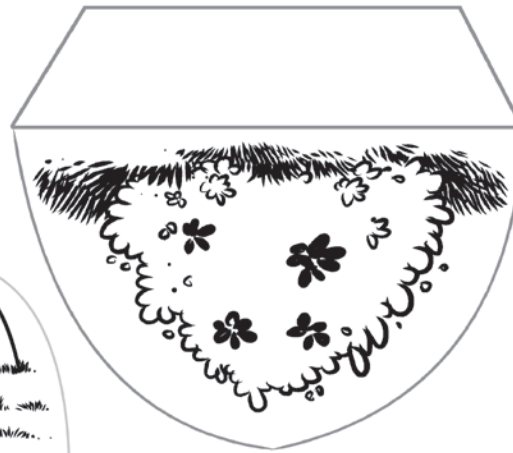

WHAT DO YOU NEED?

- Colour pencils or felt-tip pens
- Glue
- Scissors
- Shoebox
- Transparent (coloured) paper

HOW TO MAKE IT?

- Colour in the drawings and cut them out (including the glue tabs!).
- Colour or decorate the inside of the shoebox.
- Cut a viewing hole in the side of the box.
- Glue the drawings into the box using the (folded) glue tabs.
- Cut a large square out of the lid and glue transparent (coloured) paper over it from the inside. That gives you plenty of light in your garden!
- Put the lid on the box and you're ready!
Now you can show everyone your own sculpture garden!

TIP!

Of course you can also draw some new works of art yourself, or put yourself in the middle of the sculpture garden... as the proud director!
